

A decorative border of small globe icons surrounds the text. The top row consists of 18 globes. The left and right sides each have a vertical column of 18 globes. The bottom row consists of 18 globes.

Year 3/4 Term 4 Bulletin

Welcome back to a fun-filled and busy final term! There is plenty happening this term and lots for students to be excited about.

Our overarching idea continues from last term with our focus on *'Our environmental choices impact the future health of our world.'* In addition to this, we are also exploring this through a geographical lens by investigating maps, atlases and the characteristics of Australia and countries around the world. Students will be guided and supported in generating questions and areas of interest through Literacy, Numeracy and Inquiry. We are also very fortunate to have Mrs Cukier contributing to our lessons through her experiences in the past as a geography teacher.

Home learning continues this term, as a means to supporting concepts covered in class. The home learning task sheet is distributed Monday and due each Friday. Please note a component of the home learning is related to Student Wellbeing and Mindfulness Practice which we do in class regularly. Children have developed some really positive and helpful mindfulness habits this year and we encourage them to share their knowledge and skills with you at home. Reading for 20 minutes each evening is expected, including reading aloud, independently and sharing stories together.

We look forward to another productive term and continue to welcome parent involvement. If you would like to assist in any way in your child's classroom or have an area of knowledge or expertise you would like to offer to the 3/4 students, please do not hesitate to contact your classroom teacher.

Looking forward to a great term!

Year 3/4 Team
