

Term 3 Year 3/4 Bulletin

Welcome back to another exciting and busy term!

It was great to see the children participate with such enthusiasm at last week's school athletics day. Another wonderful example of sportsmanship and giving everything a go, a really great effort by all. Many thanks to the parents who assisted on the day.

Inquiry

Our current line of inquiry is centred around the environment with our big idea being '**Our environmental choices impact the future health of our world.**' Students will unpack this through several smaller lines of inquiry, including:

- What is the environmental state of our school?
- What does being a 5 star school mean and how do we maintain it?
- How does our community support the health of our environment?
- How do we ensure our planet is healthy for future generations?

Students will explore a range of literature, including digital texts during English lessons to further enhance their understandings and also through incidental mathematical opportunities as well. Children will continue to be challenged by words relating to these lines of inquiry, investigating spelling rules and patterns and revising vowel sounds with greater complexity.

Homework

Home work continues to be handed out each Monday and is expected to be returned each Friday. These activities relate to what is being covered during class. Students are reminded that a margin, date and title is expected in their homework books. In addition to this, it is expected children are reading for at least 20 minutes each night, including sharing books together and listening to your child read aloud.

Year 3/4 Camp

A green form has been sent home recently outlining camp details and was due back yesterday, August 2nd. In order to confirm numbers, please return this form ASAP. More details regarding camp will be provided shortly.

We look forward to another productive and engaging term!

The Year 3/4 Team
