Term 2 week 5
Grade 1 & 2 Bulletin

You have probably had excited reports from the children after their Science in-School Visit looking at life cycles of plants and animals. There was some apprehension when the python was first introduced but most children enjoyed the hands on experience.

Help Needed: Grades 1 and 2 are going on an excursion to the Botanic Gardens on Monday May 23rd. We will need 2 Parent Helpers per class. Please contact your child’s class teacher if you are available for the whole day.

Reading: Please keep ensuring your child is reading at home each night. Most children are enthusiastic about changing their books each day.

Mathematics: Mathletics passwords will be sent home during the week. Grade 1 are looking at ordinal numbers.

Education Week: Next Wednesday 18th May is technology night in the MPC. All families are invited to join in. An information sheet will be sent home with your child during this week.

Mindfulness in May: We encourage you to talk about Mindfulness and some relaxation at home with your children. Try having a look at the Smiling Mind app.

From the Grade 1 and 2 Teachers.
