Reading and Writing

We encourage you to visit your local library over the holidays and to continue reading with your child/children.

It’s great for children to see their parents read and write.

Try and find time to read for yourself too.

Writing books, creating comic strips, composing letters to relatives or writing a diary are meaningful ways to write together over the holidays.

We are always happy to share them after the holidays.

Maths Talk: Time and Measurement

Discuss the changes you see in the seasons, the date, temperature and record any upcoming events on a calendar.

These practical daily occurrences help your child develop an appreciation of mathematical concepts.

See you back at school on October 3!

Jenny, Pippa, Pauline, Colleen, Mat, Jennie and Aurelie – student teacher working in grade 1 and 2 area

Your child/children will bring home their Term 4 Excursion/Levy form this week. Please ensure it is signed and returned to school ASAP so they are able to participate in all the exciting events that are scheduled for next term. If you misplace it you can print another one from the school website - Year 1 and Year 2.

Thank you for continuing to support us.
