Stop the Monsters!

Last night, a group of year 1 and 2 students (and their parents) successfully stopped a collection of rampaging monsters in the MPC. They used a combination of innovation, persistence and hard-work to build intricate traps to capture the cheeky foes. Well done to all of the families who participated, and if you did miss out, we encourage you to build a Rube Goldberg Machine at home. It's a fantastic way to experiment with real-world maths and science concepts and an excellent way to connect with your children.

Botanic Gardens Excursion

Monday 23rd of May

Our level 1 and 2 students will be attending the gardens on Monday to continue their investigation of living things.

Important:

Depart: 9am. Please report to class by 8:50am!

Return: Approx 3pm. (This time is flexible, dependent on weather)

Bring: 2 plastic bags, the first containing snacks, the second containing lunch. 1 drink bottle. 1 light rain coat. **NO LUNCH ORDERS**

Parent Helper: Please sign in at the office. Make sure you have your WWC

***NAME EVERYTHING***

What's in a Name?

Armadale Primary School has its very own resident monster and it loves to eat lost property. It is currently brimming with all kinds of lost artefacts and they all have something in common...

No names.

To ensure your child’s belongings do not fall prey to the belly of the 'beast', please name each and EVERY item that is brought to school, including: jackets, lunch-boxes, bottles, jumpers, footy-card books etc.

Thank you.

The Early Bird Catches the Worm

Or in this case, the on time student catches the learning. Please ensure your child is at school before the final bell and is ready to enter class at 9am.

Being late to school affects everyone.

The Level 1 and 2 Team
