Who’s Pulling the Strings?

As promised, the grade 1 and 2 students were treated to an extraordinary production, performed by a travelling troupe of witches, queens, kings, princes and ‘damsels in distress’. They were ably assisted by the talented and charismatic Christine. After the production, the stars of the show stayed behind to take the students on a behind-the-scenes look at how the production was organised. This reviewer gives it 5-Stars!

Help Needed: The grade 1 students (and their teachers) are going to be planting bulbs next Wednesday.

What: Planting bulbs with the grade 1s
When: Next Wednesday, 8th of June
Time: From 9am to 11am
Who: Parent helpers.
If you can help, please contact your child’s classroom teacher via email or in person.

Year 2s would like up to 3 parent-helpers next Thursday, 9th of June between 9-11 to help students with constructing puppets. Please email Colleen, Mat or Laura if you can help.

Something to Report

Your child’s teacher has been busily finalising assessments and composing reports about each child’s progress this semester. These reports will be released in the next few weeks. If you are wondering about your child’s progress, the report will provide greater insight. If you ever have immediate concerns about your child’s progress, we encourage you to speak to us.

Survive vs. Thrive

Grade 1 and 2 students have been exploring the nature of living things this term. Some classes are investigating this question: What helps living things thrive?

Part of a living thing’s capacity to thrive involves adapting its body or behaviours to its environment.

Explore this concept with your child by investigating different animals and plants and asking them about what behaviours or body parts might help that animal thrive in its environment.
