Grade 1 classes are expecting Jack to arrive any minute with all of these beanstalls growing! The children are watching with great interest as their seeds are germinating and growing roots and leaves. They are keeping journals of progress with their plants.

Grade 2 are looking forward to hosting Silk Worms in their classrooms and the teachers would be pleased to hear from anyone who has access to Mulberry leaves to feed them.

Grades 1 and 2 are both participating in a Science In-School visit next week. Children will explore the life cycles of plants and animals.

Both grades are also going on an excursion to the Botanic Gardens on Monday May 23rd. We will need 2 Parent Helpers per class. Please contact your child’s class teacher if you are available for the whole day.

Reading: We are using Reading Eggs in class so your children may be keen to follow up on this at home. Please just ask your child’s teacher if their code has been forgotten or misplaced.

Mathematics: Grade 1 are continuing to look at Time and venturing into comparisons between Analogue and Digital representation. This may be an area to build on at home.

Junior Choir: Miss Johnson is currently on leave so Choir will resume when she returns.

From the Grade 1 and 2 Teachers.
