Grade 1 students will be bringing home their Skooville password today—please check for it in their blue take home bag. Skooville is a social networking site that introduces students how to communicate in a safe and controlled manner. Visit the link: https://www.skooville.com/#about for additional information.

**Bulb Stall**

Graded 1 students will be managing a bulb stall on Tuesday, 14th of June at 3pm. If you would like to attend, please bring $10 with you to purchase your child’s bulb or send it along with your child if you are unable to come. The students will be deciding how to use the money in the near future. It will also offer them a great opportunity to handle real money.

**Maths**

Grade 1 students are exploring money, including counting, recognising different notes and coins and giving change. You can also practise this at home with your child.

Grade 2 students have started looking at data collection which has included devising specific survey questions, creating ways to record and publish the data and thinking about what the data might tell us.

**Bean Plants**

The grade 1 bean plants will be coming home soon. When your child’s plant arrives home, we encourage you to keep supporting their learning by helping them fill out their seed journals.

**Unnamed Containers**

We are experiencing an influx of unnamed containers. Please name everything, including the containers housed within large nude-food lunchbox containers.

**Fabulous Hands for Fiji**

The grade 2s will be raising funds to support the rebuild efforts of schools in Fiji. They will be painting simple designs on to student hands during recess and asking for a donation of 50 cents.

This will occur on the 16th of June from 11am to 11:30am.

If you have any excess body paint that you would be happy to donate, please see Colleen or Mat.

Thank you, Grade 1 and 2
