NGV Excursion
The students headed off to the NGV last Thursday for our excursion. They had a wonderful time. We got to look around the Gallery and have a look at the way emotions are portrayed in art through installations, sculptures and paintings. They enjoyed using The Weeping Woman by Picasso as inspiration for their artwork they created in the workshop. The students loved the opportunity to be creative and I’m sure many great discussions were had at home about what they saw.

We received wonderful feedback about how creative and respectful our students were and that makes us all feel very proud. The artworks promoted a lot of thoughtful and engaging discussions.

A big thank you to all the parents who came and helped out on the day.

Bulb Stall
We hope you all enjoyed the opportunity to purchase the pot your child decorated. They put a lot of thought into decorating it. Plants are a fantastic way for you to learn about living things with your child and can teach them about responsibility and the feelings associated with waiting for something to grow.

Inside Out
We are going to be watching the movie Inside Out as it provides a wonderful representation of feelings and is a springboard for great discussion. The movie is rated PG and if you would like your child NOT to view this movie please notify the classroom teacher.

REMININDERS
We are changing our Investigation areas to correlate with our new unit of inquiry and we are seeking some donations. We are looking for donations of any AFL paraphernalia such as jumpers, scarves and beanies you no longer need as well as toys that your children no longer play with.
